FIVE GETTYSBURG MEN ARE INJURED

Automobile Turns Turtle in Waynesboro and Five Gettysburg Men are Fortunate to Escape with Slight Injuries.

Five Gettysburg men had remarkable escapes from serious injury in Waynesboro on Thursday when the automobile owned and driven by Charles Rudisill skidded on a muddy street and turned turtle. The entire party escaped with minor though painful injuries. Besides Mr. Rudisill those in the car were W. F. Gilliland, E. S. Faber, G. R. Thompson and C. C. Bream.

They started from here in the morning for the Hagerstown fair and were leaving Waynesboro when the accident occurred. Mr. Rudisill was driving his five passenger Buick at a moderate rate of speed when he came to a sprinkled street. As soon as the car struck the muddy roadway the rear wheel started to skid. In a moment the car had overturned, with all of the occupants except Mr. Faber being thrown about the street. Mr. Faber was pinned under the car, his head and shoulders being beyond the edge and the rest of his body held to the street.

As soon as the other men were able to recover themselves they went to his assistance and succeeded in getting him out from his uncomfortable position. The iron which holds up the forepart of the top had been pressing into his back and this caused him considerable pain.

Mr. Gilliland sustained painful injuries to both arms, the one being badly cut at the wrist and the other so badly sprained as to be almost useless for some hours. He was also cut about the face and a few minutes after the accident fainted as the result of his injuries.

Mr. Rudisill was thrown some distance, his fall terminating within a foot of the sharp curb which would undoubtedly have resulted in very serious injuries had he struck it. He sustained cuts about the head and a badly bruised knee.

Sheriff Thompson had his nose badly bruised and received bruises on the leg.

C. C. Bream had one ankle painfully hurt.

The car was only slightly damaged, the windshield being broken and the fenders bent. After a little work it was put in running order.

The accident caused quite a lot of excitement in Waynesboro and a crowd gathered. The injuries were taken care of by physicians in that town and after the Gettysburgians had assured themselves that they were not badly hurt Mr. Bream and Mr. Faber went on by train to Hagerstown.

After the automobile was in running order the balance of the party went on also, intending to pick up the other two and bring them home in the car but in the crowd they were missed and Mr. Bream and Mr. Faber came home by train, the other three in the machine.

This morning all are somewhat stiff and sore from their injuries but receiving warm congratulations from their many friends over their escape from more serious injury.

GYPSY CHIEF OUT AGAIN

The gypsy band which caused so much excitement near Biglerville on Wednesday and Thursday are again being led by their big chief, Steve Miller, and announce their intention of remaining in Adams County for some time to recover by their "business" the \$104.25 which they had to pay to secure their chieftain's release. In this large sum is included a \$50 license which allows them to ply their trade in this county for one year. The band is composed of Brazilian gypsies. They have plenty of money, it seems, producing a roll of bills amounting to something over \$800 when they got out their cash to pay for the license and the costs connected with the case. Their horses were returned to them following settlement of the trouble.

GAVE BAIL FOR COURT

Detective William J. Breitenbaugh, of York, served a warrant upon Samuel Light McSherrytown, on a charge of non-support, preferred by his wife, who resides on Howard alley, York. Light was taken to that city and arraigned before Alderman M. V. Elssner, of the Tenth ward, and he was held under \$300 bail for appearance at court. Bail was furnished.

STATE MOTHERS MEETING HERE

State Congress of Mothers in Thirtieth Annual Session and Child Welfare Congress Meet in St. James Chapel.

The thirtieth annual meeting and child welfare conference of the Pennsylvania Congress of Mothers opened on Thursday evening in St. James chapel with delegates present from many sections of the state. A small number of local people were present at the opening session.

Rev. J. B. Baker made the opening prayer and Prof. W. A. Burgeon gave the address of welcome in which he said that, of all the organizations which hold their gatherings here from time to time, he did not believe any had higher ideals and purposes than the Congress of Mothers. Miss Maud Miller, secretary of the local Parent Teachers' Association read greetings from the president, Mrs. Will M. Seligman, and Mrs. George K. Johnson, president of the Pennsylvania Congress of Mothers, made the response. Miss Reba Miller sang a solo.

The principal address of the evening was by Dr. Jesse Holmes, of Swarthmore College, whose subject was "Education for Righteousness, its Aims and Means." Dr. Holmes endeavored to show that the changes which have been brought about in recent years have put the church, the home and the school in different relation to each other than in former years and that not one of these institutions had yet adapted itself to the changed conditions.

A letter was read from Rev. Fr. Dougherty in reply to an invitation sent him to attend the meeting. He expressed his hearty approval of the motives of the Congress of Mothers and asked that the delegates visit the parochial schools during their stay here and that, if possible, one of their number should make an address to the children there. This morning the business of the session was taken up and the reports of officers, delegates and committees were heard. The business was resumed at the afternoon session in the Wizard Theater at which an illustrated address was given by Mrs. Agnes H. Reeve, president of the New Jersey Congress of Mothers and special agent of the Department of Good Roads, Washington, D. C. Mrs. Reeve gave an address on "The Four Cornerstones of the New Country Life."

While the business side of the convention is occupying much of the time a number of pleasant social features were arranged by local members in charge of entertainment. On Thursday afternoon a reception was held at Hotel Gettysburg, the convention headquarters, from four to six o'clock and this afternoon from one to two o'clock an automobile ride about town was given the visiting delegates through the courtesy of the automobile owners of the town. Battlefield trips will be taken on Saturday.

THEOLOGY'S TAX ON WEED

Students preparing for the Lutheran ministry at the expense of the church are forbidden to use tobacco in any form, according to the resolution adopted by the West Pennsylvania Synod, which is holding its annual session in York. It was decided to deduct a sum from the endowment of those beneficiaries of the church who smoke or chew.

A clause was incorporated in the educational committee's report, protesting against Lutheran congregations which have enough money to educate their young men for the ministry, yet appeal to the Synod for funds.

The synod selected St. James' Lutheran Church, Gettysburg, as the place for the 1913 meeting.

The following were ordained as ministers, Rev. Dr. Diffenderfer conducting the services: R. E. Peterman, McConnellsburg; Mervin E. Smith, of Newville; William N. Seligman, Fayetteville; Ralph R. Rudolph, Lemoyne, and Charles Hesse, Shrewsbury.

FINGER CUT OFF

Mrs. May Gise, widow of the late B. F. Gise, of Salisbury, Md., formerly of New Oxford met with a painful accident recently. Mrs. Gise continues the butchering business at which her husband was engaged at the time of his death, a year ago. Her right hand was caught in an electric meat grinder, and the index finger was cut entirely off, as was also about one half of the thumb, and it was only by the quick action of an assistant, who stopped the machine, that her entire hand was not ground to pulp.

ALL INTERESTED IN FARMERS' DAY

Entire County Watching with Interest the Plans for Gettysburg's Farmers' Day on October 26. More Premiums Offered.

No idea has been launched in Adams County in recent years which has met with such general favor among the residents of the county as the Farmers' Day plan which has been sent broadcast through this section during the week and in every town and township of the county people are talking of Gettysburg's big one-day fair which is to be held here on Saturday, October 26.

A canvass of the sentiment in the county shows it to be unanimous in favor of the plans which are being furthered by the business men of the town and the attendance is sure to be even larger than the promoters had hoped when they first started the idea.

The announcement of the handsome premiums to be offered was surprising and gratifying. Many of the more or less doubtful farmers thought that some trifling gift would be offered for their prize products but a perusal of the list at once showed that the stores of the town had come forward most generously and that it would be worth any one's while to get in the competition for the handsome and valuable premiums which had been subscribed.

As a result there has been a hurried investigation of wheat bins, of the winter store of potatoes, of all the big vegetables which have been gathered during the last few weeks and the large ones are being carefully laid aside and preserved for the exhibition. Fruits are being just as eagerly sorted and apples, peaches, pears and grapes will figure extensively in the exhibitions on October 26.

While the farmers have been looking about for this sort of thing their wives have been no less active in planning to display their canned fruits and their ability at cake baking. The best of the kitchen products will be on display here and it is said that many town women will endeavor to show that they are just as good cooks as their famous county neighbors.

The little people are taking as keen interest in Farmers' Day as their elders and they will urge any doubtful parents to bring them in to hear the bands and see the crowds. Some fun is promised on the Square in the way of races and other amusements but the committee has not yet made announcement of these features. Farmers' Day is to be held not only for exhibitors and other older people but for the youngsters as well and they will have a good time if their parents permit them to come along.

Several more merchants have announced their premiums as follows:

Dougherty and Hartley: for the best half peck of York Imperial apples, one pair men's diving gloves; for the finest and prettiest half dozen cut chrysanthemums, ladies' all wool sweater; for the best roll of country butter, not under two pounds or over five pounds, one pair of all wool blankets.

W. H. Tipton: for the best gingerbread, one dozen best photographs.

C. B. Kitzmiller: for the largest rooster in display box, \$5 gold watch chain; for the best quart jar of cucumbers, pair of ladies' \$2.50 shoes.

Photoplay Theatre: for the boy or girl making the most comic pumpkin lantern, \$1.00 in cash; for the person guessing nearest to correct number of pictures in film to be exhibited in window \$1.00 in cash.

PLANK TWIRLS 12 INNING GAME

After 12 innings, in which neither side was able to score, the game between Hanover and the Southern County Independents, played in Hanover Friday afternoon, was called on account of darkness. The battle was between Paris Kunkel, who has been the mainstay of the Independents all season, and "Eddie" Plank, the Athletic southpaw.

Plank's work was up to its usual standard and there is hardly a doubt but that he would have pitched a no hit game if he would have been able to let out. The four hits were made in four different innings and came when Plank eased up to give the catcher time to rest. Plank had his situation in hand at all stages and did not issue a pass. He retired the side in the ninth on nine pitched balls. Small redeemed himself by cutting off four of the five Independent players who got on base and who attempted to steal.

MR. KUHN

Mr. Kuhn, father of Mrs. Theodore Eline died at the latter's home in Littlestown Monday night after a several weeks' illness.

Mr. Kuhn was a native of Taneytown, where he lived until about a year or more ago, when he went to Littlestown to reside with his daughter. He had been in his usual health until several weeks ago, when he received an ugly fall, which caused his death.

He is survived by two children, of Taneytown, and Mrs. Theodore Eline, of Littlestown. The body was taken to Taneytown Thursday morning where the funeral services were held in the Catholic church and interment made in the Catholic cemetery.

MRS. HENRY SLAYBAUGH

Mrs. Margaret Slaybaugh, widow of Henry Slaybaugh, died at her home in Mummansburg about noon on Tuesday aged 77 years, 4 months and 2 days. She leaves one brother, Levi Crum; and three sisters, Miss Maria Crum, Mrs. Susie Knox and Mrs. Lizzie Weaver, all living in Mummansburg.

Funeral from her late residence at noon on Thursday conducted by Rev. C. F. Floto. Interment at Bendersville.

EDWARD FISHER

Edward Fisher died at 11 a. m. Thursday from a complication of diseases, at the home of his daughter, Mrs. John E. DeGroot, in Hanover. He was aged 75 years.

He was born in Maryland, but most of his life was spent in Adams county. During the last few years he made his home with his children. He was married twice; his first wife was Miss Anna Dehoff, of Adams county, and after her death he was married to Miss Annette Harner, of Littlestown, who died several years ago.

FRANK GRINDER

Frank Grinder, formerly of Gettysburg, died in Brooklyn Thursday evening. He left here about two years ago and leaves his wife and several children. No particulars have been learned.

FUNERAL NOTICE

The funeral of Henry S. Roth who died in Biglerville about noon on Thursday will be held Sunday morning, meeting at the house at 9.30. Services in St. Paul's church conducted by Rev. Mr. Floto. Interment in Center View Cemetery, Biglerville. In our account of Mr. Roth's death we gave the name of one of his sisters Mrs. Harry Bowling. It should have read Mrs. Mary Bowers.

GETTYSBURG 7, MT. ST. MARY'S 0

Before a large crowd of enthusiastic rooters Gettysburg defeated Mount St. Mary's at Emmitsburg on Thursday afternoon by the score of 7 to 0. Gettysburg's touchdown was made in the second period on straight foot ball by which the ball was carried from mid-field over the goal line. Gettysburg had several other good chances to score, once when Leathers ran almost the entire length of the field but was called back for stepping out of bounds and another time when Scheffer had a clear field but fumbled. Mount St. Mary's had only one chance to score. They got the ball first down on Gettysburg's five yard line, but could not put it over. Leathers was a sure ground gainer and the entire team put up a fine article of foot ball.

STATE HUNTERS ARE AWAKE

Early in October 125 new names have been added to the membership of the Hunters' and Anglers' Association of Pennsylvania, making a total roll now over 2,000.

Up to the beginning of October more than twelve hundred petitions, favoring amendments to the game laws, were sent over the state and as many more will be distributed as soon as they can be prepared.

The principal point set out in the petition is the opposition to the payment of the \$1 license tax. This, the hunters declare, would be a hardship. Other provisions suggested by the hunters are to allow the killing of both sexes of deer, allowing a party of three men to kill three, one each. In case there are four or more in the party, then the club men suggest that a time limit be fixed, at the same time naming three or five as the figure.

Then hunters also urge the passage of legislation providing for an appropriation to pay bounty for noxious birds and predatory animals. The present laws set out that bounty shall be paid to persons killing birds and animals in these classes, although there is no appropriation and the hunter gets nothing. One other suggestion is to prohibit the sale of game.

PARTRIDGES IN TOWN

A covey of six partridges came to town on Thursday afternoon and visited yards in the eastern portion of the borough, stopping for some minutes in the garden of Eugene Schriver on East Middle street. The birds were in fine condition.

SAYS POLITICAL WAR IS TO GO ON

F. R. Agrees With Bryan Battle is For Principle.

NOT YET OUT OF DANGER

Colonel's General Condition, However, Is Excellent—Wife Rules and Orders Quiet.

Chicago, Oct. 18.—Colonel Roosevelt has gained steadily and the surgeons in attendance upon him at the Jersey hospital believe that he is upon the high road to recovery, unless complications set in.

All the bulletins issued showed a generally improved condition, as indicated in the clinical report, the pulse, temperature and respiration showing little variation and being practically normal.

"The colonel is reacting rapidly to his normal temperament, and we are all much pleased with his condition," is the way Chief Surgeon John B. Murphy put it.

If no trace of septic poisoning develops in the next twenty-four hours the doctors say it will be a case of marking time during the tedious period of the wound healing, and that in a week's time at least it will be possible to move the colonel to his home in Oyster Bay. The doctors make the authoritative statement that the patient will be kept in Chicago until the middle of next week.

Mrs. Roosevelt maintained her watch at the bedside of her husband, and established a quiet, smooth running routine, which, it was agreed, was the best thing possible for the colonel. At noon she decreed that no visitors were to see Colonel Roosevelt during the day, because he had not slept during the morning.

Although Colonel Roosevelt is already looking forward to the time when he can leave the hospital, his physicians are not permitting his apparent improvement to influence them in making promises.

Campaign activities should not cease because of Colonel Roosevelt's attempted assassination so far as he is concerned, he declared.

The following signed statement was issued by Colonel Roosevelt in answer to what Mr. Bryan said in his speech at Franklin, Ind.:

"I wish to express my cordial agreement with the manly and proper statement of Mr. Bryan at Franklin, Ind., when in arguing for a continuance of the discussion of the issues at stake in the contest, he said:

"The issues of this campaign should not be determined by the act of an assassin. Neither Colonel Roosevelt nor his friends could ask that the discussion be turned away from the principles involved. If he is elected president it should be because of what he has done in the past and what he proposes to do hereafter."

"I wish to point out, however, that neither I nor my friends have asked that the discussion be turned away from the principles involved. On the contrary, we emphatically demand that the discussion be carried on, precisely as if I had not been shot. I shall be sorry if Mr. Wilson does not keep on the stump, and I feel that he owes it to himself and the American people to continue on the stump.

"I wish to make one more comment on Mr. Bryan's statement. It is, of course, perfectly true that in voting for me or against me, consideration must be paid to what I have done in the past and to what I propose to do hereafter.

"But it seems to me far more important that consideration should be paid to what the Progressive party proposes to do.

"I cannot too strongly emphasize the fact upon which we Progressives insist, that the welfare of any one man in this fight wholly is immaterial compared to the great and fundamental issues involved in the triumph of the principles for which our cause stands.

"If I had been killed the fight would have gone on exactly the same. Governor Johnson, Senator Beveridge, Mr. Strauss, Senator Bristow, Miss Jane Addams, Gifford Pinchot, Judge Ben Lindsey, Raymond Robbins, Mr. Prendergast and the hundreds of other men and women now on the stump, are preaching the doctrines that I have been preaching and stand for and represent just the same cause. They would have continued the fight in exactly the same way if I had been killed, and they are continuing in just the same way, now that I am for the moment laid up.

"So far as my opponents are concerned, whatever could with truth and propriety have been said against me and my cause before I was shot can with equal truth and equal propriety be said against me now, and it should be so said; and the things that cannot be said now are merely the things that ought not to have been said before. This is not a contest about any man; it is a contest concerning principles.

"If my broken rib heals fast enough to relieve my breathing I hope to be able to make one or two speeches yet in this campaign. In any event, if I am not able to make them, the men I have mentioned and the hundreds like them will be stating our case right to the end of the campaign, and I trust our opponents will be stating their case also."

MEXICAN SOLDIERS JOIN NEW REVOLT

General Diaz Backed by His Uncle's Millions.

Tampico, Mex., Oct. 18.—Felix Diaz, nephew of the deposed president of Mexico, is being proclaimed president throughout the entire southern states of the republic.

Five regiments of infantry, the bulk of the federal troops on the Tampico coast, have joined the Diaz colors. After a stormy session of the congress, during which Deputy Madero demanded the resignation of the cabinet and was quashed by the president of the chamber refusing to permit discussion Madero again attacked the government and insisted that peace could come to Mexico only through either the resignation of Madero or the intervention of the United States.

General Diaz is in undisputed control not only of the port of Vera Cruz, but the entire state. He has 3900 men under his immediate command in that city, while rebel troops loyal to his cause are within forty miles of the national capital. Diaz has a huge cache of arms and ammunition in Vera Cruz, he has the backing of his uncle's millions and did not undertake this revolt without vast stores.

The Madero government is doomed. General Diaz declared that General Bernardo Reyes now held in the military prison in Mexico City, and who is under indictment in San Antonio, Texas, will be a member of his cabinet, and added that he would hold Madero strictly accountable for the welfare of Reyes.

DYNAMITES TWO HOUSES

Stabs Three Persons and Tries Suicide as Result of Feud.

Pittsburgh, Pa., Oct. 18.—Peter Messing, a carpenter, dynamited the residence of William Jackson and William Bigger, at Pleasant Valley, near here, and seriously injured three persons and attempted suicide.

Only the arrival of the county detectives saved Messing from rough treatment at the hands of a mob that had gathered.

Mrs. Molly Scott, Mrs. Sarah Jackson and James Martin, the wounded, were taken to the hospital with Messing, who was said to be seriously hurt.

The police said Messing's outbreak was the result of a feud that has raged for years, with Messing on one side and the Jackson and Biber families on the other.

Discuss State Made Rates.

Remarkable Cures

Thankful People Tell What San Cura Ointment did for Them

The People's and Huber's Drug Stores sell San Cura Ointment on the money back plan—no cure—no pay. Guaranteed to relieve immediately, salt rheum, itching bleeding or protruding piles, burns, cuts, bruises, old sores, pimples, boils, carbuncles, chapped hands, chilblains, festers, insect bites and poison ivy.

"My face and neck were one mass of sores; doctor said I had eczema and erysipelas. I had not slept for weeks with burning, itching pain. The first time I used San Cura Ointment I slept all night and in a short time was completely cured."—Chas. Fay, Townville, Pa.

"My wife stepped on a rusty nail and ran it into her foot. San Cura Ointment drew out a poisonous matter and cured her promptly."—Eugene McKenzie, Plunk, Pa.

I had been afflicted over thirty years with piles and spent over \$500 for pile medicine. Two jars of San Cura Ointment cured me."—James Lynch, Enterprise, Pa.

San Cura Ointment costs 25 and 50 cents a jar at People's and Huber's Drug Stores Gettysburg, Pa., and is the best remedy in the world for burns, scalds, cuts and bruises.

SOAP CURES PIMPLES

Don't Gouge Out Your Corns

The razor or jack-knife way of paring and gouging out corns is but a temporary relief, and very often causes blood poisoning. To quickly relieve the pain and surely lift out the corn, apply Putnam's Painless Corn and Wart Extractor, the one sure remedy for sore foot lumps, warts, calluses, bunions and corns. Its name tells the story—Putnam's Painless Corn and Wart Extractor, 25c per bottle. Beware of dangerous substitutes. Putnam's Extractor is sold by People's Drug Store.

Rheumatic Sufferer

Throws Away Cane When Rheuma Banishes Swelling from Knees and Ankles.

Every reader of the Gettysburg Times who is oppressed or tortured with Rheumatism, Sciatica or Arthritis is invited

to go to The People's drug store and secure a bottle of RHEUMA, the remedy that made Mrs. Knox happy and healthy. If it doesn't drive the poisonous waste matter from your system and end your agony you can have your money back. A bottle costs but 50 cents.

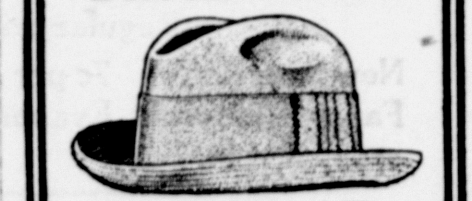

"For 14 months I was so badly afflicted with Rheumatism that much of the time I was obliged to use a cane in walking. On the recommendation of your druggist in Glen Falls I used one bottle of RHEUMA and THE CANE IS IN THE CORNER NOW. No one could be happier than I am to be rid of the pain, swollen knees, contracting muscles under the knees and badly swollen ankles. When I tell you my weight is 235 pounds you will understand what the use of RHEUMA for Rheumatism means for me. I certainly believe there is no remedy for the disease like RHEUMA."

TURKS BEGIN WAR IN THE BALKANS

Declare Hostilities Against Bulgaria and Serbia.

GREECE IS NOT MENTIONED

Ottoman Government Takes the Offensive and Orders Armies to Advance on Frontiers.

London, Oct. 18.—War became general throughout the Balkan peninsula, Turkey, which for a week or more has been fighting with Montenegro, issued a formal declaration of hostilities against Serbia and Bulgaria, and ordered her armies to advance against their frontiers.

Greece for some reason was not mentioned in the official document delivered to the Serbian and Bulgarian legations at Constantinople, and the Greek minister has not been asked to leave the Turkish capital, as were his Serbian and Bulgarian colleagues.

The Turkish minister left Athens without the usual formalities of applying for his passports. It is announced that fighting between the Turkish and Greek armies has been begun on the frontier.

In her declaration of war Turkey places the blame on Bulgaria and Serbia, whose recent actions, she says, forced her to take a decisive step, although she was desirous of peace. A note addressed by the Turkish government to the Bulgarian and Serbian legations at Constantinople said that it was impossible to maintain peace any longer, and that the Porte was therefore obliged to put an end to the missions of the Bulgarian and Serbian legations.

The diplomats were invited to withdraw their passports and leave Constantinople at the earliest moment. The note stated that the step was taken in consequence of the recent note handed in to the Turkish government by the Balkan states, which Turkey considered constituted an interference with her internal affairs. A second factor was the mobilization undertaken by Serbia and Bulgaria, and the third was the daily skirmishes on the frontier.

Although Turkey had anticipated the Balkan states and ordered a simultaneous advance of her armies against Bulgaria and Serbia, it is expected in military circles that the Serbians and Bulgarians will be ready to meet the Turkish invading force by the time it reaches the frontier. How far preparations have gone, however, is largely a matter of conjecture, as neither military attaches nor correspondents are allowed near the armies.

King Ferdinand with his staff has left for the headquarters of the Bulgarian army near the Turkish frontier. It is believed he will issue a proclamation to the nation or make a formal declaration of war from that position.

Despite the fact that there has been no declaration of war between Turkey and Greece, dispatches from Athens state that fighting between the Greek army and the Turkish forces stationed along the frontier have begun. Thus Turkey is involved in the general war fare against the four Balkan allies, Bulgaria, Serbia, Greece and Montenegro, that has been expected for many days.

An escort of four Greek destroyers is conveying the Greek steamer Macedonia, with Greeks and Servians on board, who are returning from America to join their regiments to fight against the Turks. She carries also a large cargo of ammunition. The Macedonia arrived at Algiers from New York, and found the four destroyers recently purchased by Greece in England waiting to accompany her on her voyage.

Two hundred Arnavat tribesmen were killed in a battle with Serbian troops on the frontier near Priepole, on the northern part of the Sanjak of Novi Bazar. The tribesmen attacked, but were repulsed by the Serbians.

Boy Found Shot Dead in Woods.
Kingston, Md., Oct. 18.—After a searching party had sought Morris Tull for several hours, his body was found lying in the woods near here, with a gunshot wound just under the 4th rib. Tull, who was fourteen years old, had gone gunning for squirrels. It is presumed that he shot at a squirrel and after injuring it quickly loaded his gun and ran to get the second shot and while so doing fell, the gun being discharged and the full load entering the lad's body.

Four Drown as Barges Sink.
Watertown, N. Y., Oct. 18.—Four persons lost their lives when two barges went to the bottom of Lake Ontario, near Sackett's Harbor. The boats encountered a heavy wind and storm and the tow line between the barges and the steamship Butler parted.

Mrs. Snodgrass Fainted.
Los Angeles, Cal., Oct. 18.—Overcome by emotion when the electrical score board at a local theater showed Fred Snodgrass' miff of the fly which cost the New York Giants the world's championship title, Mrs. Snodgrass, mother of the New York outfielder fainted.

TELLS OF PLOT TO CONTROL ELECTION

Tom Lawson Startles Campaign Probers.

Washington, Oct. 18.—"The sinister system" formed a deep-laid plot to control the present presidential election, Thomas W. Lawson, of Boston, told the senate campaign contributions committee.

Mr. Lawson was careful to impress upon the committee that he knew, only in a "general way," of the alleged colossal scheme to nominate and elect a candidate "satisfactory to the Wall street interests."

All of his testimony was of matters which he knew in the same "general way," and he became involved in a heated controversy with the committee in defining just what he meant by this phrase, with which he prefaced practically every statement he made. In the course of the dispute he earnestly informed the committee that the examination of J. P. Morgan and other witnesses had been a "joke."

The conspiracy of the Wall street interests, of which Mr. Lawson knew in a general way, included, he declared, the defeat of Colonel Roosevelt at the Republican national convention, the nomination of President Taft and the election of Colonel Roosevelt to the campaign as a third party candidate "to split the Republican party."

All this without the knowledge or consent of Colonel Roosevelt.

Then, Mr. Lawson knew in a general way, a mysterious fund of \$1,000,000 had been raised in Wall street to deadlock the Democratic convention at Baltimore, prevent the nomination of any of the candidates before the convention and to name a dark horse satisfactory to the "system," who was to be elected.

"I communicated this information to Mr. Bryan at Chicago during the Republican convention," said Mr. Lawson, "and as a result Mr. Wilson was nominated and the scheme failed."

FARMER EATS SELF TO DEATH

Ruptured Several Organs Gorging Himself With Food.

Pottsville, Pa., Oct. 18.—John Milva, a farmer, sixty-five years old, residing at Stettin, literally ate himself to death at a hotel.

The meal served to him tasting good, he continued to eat until he had masticated food which would make a meal for four ordinary men. A few minutes after gorging himself Milva fell over dead.

An examination by Coroner Moore showed the rupture of several organs as the result of the big meal. The coroner said that a younger man, whose sinews were more elastic, might have survived the strain.

STATE RESTS IN BECKER CASE

The Defense in Murder Trial Opens Today.

BANK BOOKS EXCLUDED

Court Refused to Allow Prosecution to Show Becker Deposited \$60,000 in Bank While Rose Acted as His Collector.

New York, Oct. 18.—The state rested its case against Lieutenant Becker after Justice Goff refused to permit the district attorney to prove that Becker, with no other apparent income than his salary of \$2250 a year as a lieutenant of police, deposited upwards of \$60,000 in savings banks during the months that Jack Rose acted as his collector.

It was the only important advantage that the defense has secured since the trial began on Oct. 7. The testimony had gone steadily against Lieutenant Becker from the first day. The district attorney had hoped to clinch his case by showing the jury a money motive for the murder and showing that it was Becker's fear that Rosenthal's exposure would stop the flow of graft and would drive him from the police department that prompted the killing, but Justice Goff held that there was no evidence to show that Rosenthal knew that Becker was depositing large sums secured by blackmailing gamblers.

It was true, said Justice Goff, that the affidavit made by Rosenthal a few days before the murder contained a statement that Becker was getting large sums of money, but such a statement, in the opinion of the court, was too inferential to be a legal basis for the introduction of such evidence as Becker's bank accounts.

John F. McIntyre said that Becker is eager to testify and that he may be allowed to have his way, but that no definite decision had been reached. The matter is a ticklish one. There was a possibility that with Becker on the stand, the district attorney, privileged on cross-examination to go into Becker's whole life, might find some way to get in evidence the records of the bank accounts and to bring out other damaging facts.

The prosecution put about forty witnesses on the stand. The defense expects to have about an equal number. Justice Goff has driven the trial forward with such speed that possibly another week will see Becker's fate in the hands of the jury.

After making his successful argument against the introduction of Becker's bank accounts, Mr. McIntyre made two motions, both formal efforts to secure the dismissal of the indictment and the discharge of the defendant on the ground that the state had failed to show that Lieutenant Becker had any connection with the murder. These motions Justice Goff promptly denied.

SENATOR HEYBURN DIES

Idaho Statesman Had Been Ill For a Long Time.

Washington, Oct. 18.—United States Senator Weldon Brinton Heyburn, of Idaho, died in his apartment here after a lingering illness. He was sixty years old and had been in the senate nine years.

Senator Heyburn was born in Delaware county, Pa., May 23, 1852. His parents were Quakers. He was admitted to the bar in 1876. From the day of his appearance in congress he earned the reputation of being a virile able speaker.

Vice President Sherman was notified of Senator Heyburn's death and will appoint a committee to attend the funeral, which will be held in Delaware county, Pa.

KILLED BREAKING INTO JAIL

Man With Peculiar Mania Is Shot Dead by Sheriff.

Muskegon, Mich., Oct. 18.—Edward Fromme, thirty-five years old, who when under the influence of liquor, is said to have had a mania for breaking into other peoples' houses and sleeping there, was shot and killed by Sheriff Fred Nelson.

According to the officer, he attempted to break into the county jail. He was entering the kitchen window of the jail building when Sheriff Nelson fired.

John McElroy, past senior vice commander-in-chief of the Grand Army of the Republic, participated in the ceremonies.

French Aviator Killed.

Chalons, France, Oct. 18.—Another French military aviator, Lieutenant Blane, was killed. He was flying in his monoplane over the entrenched camp here when one of the wing broke and he was thrown from a height of 1200 feet.

PHYSICIAN REMOVES MARCONI'S EYE

Inventor Was Treated With Total Blindness.

Spezia, Italy, Oct. 18.—Guglielmo Marconi's right eye, which was injured in an automobile accident on Sept. 25 last, has been removed.

A consultation of physicians had resulted in the decision that the removal of the eye was indispensable, as the famous wireless inventor was threatened with total blindness.

Professor Fuchs, the celebrated oculist of the University of Vienna, was summoned in hot haste, and he performed the operation, which, it is said, was successful.

Signor Marconi stood the very painful operation without flinching. His wife, who was very much affected; his sister-in-law and a friend, the Marquis Solari, were present during the operation. Signor Marconi's condition is satisfactory.

Farmers and feeders will this year welcome full corn cribs. It is risky business at best making meat on 75-cent corn and we will all welcome cheaper grain.

Farm orchards seem smaller and worse neglected than they were ten years ago. Perhaps the reason lies in the fact that small lots of fruit hardly ever sell profitably.

If the sheep are compelled to dig in short pastures for their living they will eat the roots of the grass. Better divide the pasture and feed one part while the other is catching up.

SHERIFF VISITS SICKLES

Leaves on Property to Satisfy a Judgment for \$5050.

New York, Oct. 18.—Personal property of General Daniel E. Sickles, which was saved for him last month through the intervention of his wife, from whom he had been separated for many years, is again in danger.

Sheriff Julius Harburger decanted upon the veteran's house in Fifth avenue and levied upon all his personal property, including his valuable collection of antiques.

In about two weeks, in accordance with the order of Supreme Court Justice Blaisdell, granting a \$5050 judgment in favor of the Bank of the Metropolis against the general, the sheriff will sell sufficient of his property to satisfy the debt.

The bank of the Metropolis obtained judgment against General Sickles on promissory notes which had not been paid at maturity.

NICARAGUA REBELS CAUGHT

Fifty Leaders Who Fled to Salvador Are Taken There.

Washington, Oct. 18.—Fifty rebel leaders who escaped to Salvador in the general flight from Nicaragua have been captured and disarmed by the government authorities of Salvador.

The men are being taken to the capital of the republic, the city of San Salvador, under guard.

The commander of the Tacoma reported from Bluefields that all is absolutely quiet there.

"First Aid" Chief Dies of Injuries.

Wilkes-Barre, Pa., Oct. 18.—While directing a team in first aid to the injured exercises at the Malby colliery a week ago, Hayden Jones, aged twenty-three years, captain of the team, slipped and fell and received severe internal injuries. The team he was directing worked on him, but he did not respond to treatment and continued to grow worse. He fought against an operation and his condition became so bad that he died.

Battle With Convicts.

Steamboat Springs, Colo., Oct. 18.—A battle between convicts who escaped from the Wyoming state penitentiary and deputies was reported over the line in Colorado, eight miles south of Dixon, Wyo. The fight lasted more than an hour and two deputies were wounded. The convicts eventually eluded their pursuers.

Slayer Ends Life in Cell.

Seranton, Pa., Oct. 18.—Joseph Murteio, in jail awaiting trial for murdering a fellow Italian at Archibald three weeks ago, killed himself by eating broken glass.

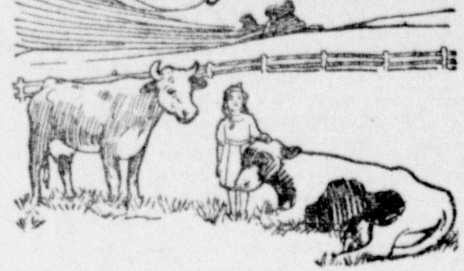

Rob Bank's Safe of \$1900.

Dallas, Tex., Oct. 18.—The safe in a bank at Hutchins, ten miles south of Dallas, was dynamited. The robbers got about \$1900. They escaped on a handcar.

Killed in Auto Crash.

Chicago, Oct. 18.—C. W. P. Hoot, a wealthy publisher, died in a head-on collision with a taxicab. The car was driven by a woman and the driver was killed.

NOTES from MEADOWBROOK FARM

Sheep deserve good care.

Asparagus is a hardy plant.

Onions stand considerable cold.

A kerosene bath for roosts is urged.

The dairy cow should essentially be a large and rich milker.

There is more or less risk in feeding ordinary silage to lambs or sheep.

It is a well-known fact that alfalfa does not do well upon an impervious subsoil.

In feeding dairy cows give them all they will clean up at each feed but no more.

Range-bred lambs are far superior to native-bred lambs for breeding purposes.

Goslings must be kept out of dampness and fed only grass, water and coarse sand.

Don't fail to divide the buttermilk between biddy and the pigs. She relishes it as much as they.

The grape root worm has committed extensive depredations among the vineyards of Pennsylvania.

A toothbrush and a little naphtha will clean your velvet coat collars and make them look new again.

Select one dairy breed and stick to it. Don't mix up the breeds or you will spoil the sale of your stock.

All fowls, chicks, ducks and ducklings that are kept in yards should have plenty of green feed every day.

If the frost kills the vines of the sweet potatoes cut them off as soon as possible or the potatoes may turn black.

The spring colt should be pretty well broken by this time; if not, this is a good month to get acquainted with him.

Clean the stock tank, and keep it free from moss. Then fill it with fresh cool water. The stock will appreciate it.

The manager of the dairy farm must supply the brain. The success of the undertaking will depend largely upon him.

PRESSING THE PLAITED SKIRT

Best Method by Which This Most Popular Model May Be Kept in Good Condition.

Now the plaited skirts are creeping back to the realm of fashion, women who like to attend to their own clothes will want to know just how to go about keeping them well pressed and in good condition.

First of all, you must baste the plaits in place just as they were when the skirt was new; run a line of basting on the outside edge of each plait the full length, catching it down firmly to the material underneath. Lay it over the ironing board wrong side out, place a damp cloth over the plaits and press with a hot iron until the damp cloth is dry.

Allow the basting threads to remain in the skirt after it is pressed for several hours; then remove them, and your skirts will keep their shape and look nicer for a long time.

This same rule applies to all plaited garments.

AID TO ECONOMICAL WOMAN

Fichu a Means of Giving to Gowns the Requisite Appearance of Freshness.

To the woman possessed of but slender means the revival of the fichu comes as a veritable godsend, for by its kindly aid last year's gowns can be brought up to date.

A fichu of jetted net, flecked with emerald green or cerise, will quite transform even the dingiest of black dresses, whilst on an ivory satin which has seen its best days a fichu of deep ivory net will work marvels. And now that such wonderful dyed nets and laces are to be had so cheaply, no gown need be left out in the cold, be its color what it may. The fact that the fichu is one of the modes of the moment should not blind us to that other greater fact—that though the fichu may, in a sense, suit everyone, there yet remains a certain type of woman who, if she be wise, will wear hers with a difference. Different figures require not only different fichus, but widely different methods of draping.

GIRDLES OF MANY SHAPES

Up-to-Date Girl May Employ Her Own Ideas for This Form of Adornment.

By her girdle's style shall you know the up-to-date girl. If her waist be not extra long and slender, she folds over, into two-inch width, a strip of velvet, or satin sash ribbon and this she ties into a bow consisting of a bar and two quarter-yard long ends which droop from either side of the common center which is placed directly at the center of the waist line in front. That's merely one oddity. A second is the girdle which goes once around the back of the waist and twice across its front, then fastens at the left side under a cluster of velvet leaves. A third is the straight round peasant belt, reaching to half way under the arms and formed of perpendicular bow plaits of the silk held down with narrow velvet straps. Lastly there is the plain velvet band fastening under a fob-shaped strap finishing with a velvet rose.

Fashion's Fancies

A combination of black and gold is especially favored in the new velvet day dresses.

Some of the new shadow laces have their patterns outlined with a thread of metal.

The most favored fabrics for little girls' dresses are durable serge and washable linen.

Among the new ribbons are combinations of warp prints with brocade and moire.

Young girls are wearing the large shepherdess hats with streaming ribbons and dainty flowers.

Large gilt hairpins, headed by artificial pearls are very much used by women while motoring.

Some of the new evening wraps combine fur, lace, chiffon and brocade in a most surprising way.

Among the first felt hats small shapes are dividing the honors with large, soft droopy shapes.

HAIR ORNAMENT.

The present fashion for wearing ribbon in the hair affords scope for many dainty devices, such, for example, as the becoming arrangement shown in the accompanying sketch. The ribbon is draped smoothly in the center, and then gathered into rosette bows on either side, and in the center of each bow is a small jeweled ornament. A fairly long hairpin is sewn firmly underneath each rosette at the back, and serves to keep the head-dress securely in its place.

The New Sleeves.

The new influence of the trimmed sleeves is making itself felt just now. It will be seen where the lawn frill runs almost to the elbow. Sometimes it is seen frilled right up to the shoulder. This fancy may lead later to a revival of the puffed and banded sleeves of the Elizabethan era.

For Corns, Bunions You need EZO

Just Rub it on Sore, Weary Feet, and Misery Vanishes—Ask for EZO for the Feet.

Every reader of the Gettysburg Times that knows EZO, the ointment, is the real remedy for sore, aching, painful, burning, tender feet; but how many know that it is also guaranteed to extract the burning agony from those terrible Corns, Bunions or Callosities or money back at The People's Drug Store or druggists everywhere.

Give EZO a trial: 25-cent a jar will prove to you that it is the best remedy to banish foot misery, and toughen your feet so that you can run, jump or dance and be joyful.

Just rub it on—no time wasted fussing around and remember it's splendid for rough skin, chapped hands and face and for frostbites and chilblains.

HOW TO RESIST

Chronic Coughs and Colds. Strong vigorous men and women hardly ever catch a cold; it's only when the system is run down and vitality low that colds and coughs get a foothold.

Now isn't it reasonable that the right way to cure a cough is to build up your run down condition again?

Mrs. Olivia Farham, of East Durham, N. C., says: "I took Vinol for chronic cough which had lasted two years and the cough not only disappeared, but it built up my strength as well."

The reason Vinol is so efficacious in such cases is because it contains in a delicious concentrated form all the medicinal curative elements of cod liver oil, with tonic, blood building iron added.

Chronic coughs and colds yield to Vinol because it builds up the weakened, run-down system.

You can get your money back any time Vinol does not do all we say. People's Drug Store, Gettysburg, Penna.

Not Even Howard E. Coffin Could Build Such A Car As This

Everyone knows that Howard E. Coffin is the Master Automobile Designer of America. He has built more successful four-cylinder cars than any other man.

But, working alone, he is not capable of building an automobile equal to the New HUDSON "37"

A NEW IDEA

For more than two years Mr. Coffin has been organizing this staff of engineers. There are 48 now. They have been gathered from all the automobile building nations—from France, Germany, England, Belgium and Austria. They came from 97 different factories. Combined they have had a hand in building more than 200,000 cars.

It is carrying out the idea of team work which is the foundation upon which all successful concerns are now built.

Experts specially fitted to do certain kinds of work combined their knowledge. Therefore the HUDSON "37" represents more than that which any one man could do. Even Mr. Coffin, with his wide knowledge and recognized ability in creating new ideas, would fall short in an endeavor to build a car equal to the HUDSON "37."

Automobiles have heretofore been designed usually by one man, just as Mr. Coffin, in all his previous cars has de-

pendent principally upon his own ability.

Into the care of any one man, is combined the experience and ability of the individual. There is also incorporated into such cars all the errors and hobbies, some of them impracticable, that any individual is very apt to overlook.

ARE MISTAKES PROBABLE UNDER SUCH CONDITIONS?

We fortify ourselves against error by focusing upon every detail the combined skill and experience of as many experts as we can obtain.

We don't limit ourselves. Whenever a man was found who can do work better than any one else and we have need for such work, that man was induced to join this organization.

That is why there are 48 engineers in this company—the largest number employed by any automobile manufacturer in the industry, and that is why HUDSON cars go out without mistakes. That is why there has been no error in judgment.

ment. Experience is not bought at the expense of the buyer after the car is in his hands. It is paid for out of the combined experience of the men who build the car. We pay it in salaries and not in replacements. Yet many of these men are substantially interested in the Hudson Motor Car Company.

The Hudson Motor Car Company is not owned by individuals who do not contribute to the success of the business. With exception of one holder of a small amount of stock, everyone engaged in this Company is actively interested in its operation. Consequently no earnings must be made for brains that are not responsible for those earnings.

There is no large overhead—no water. That accounts, in addition to the value of brains in the engineering—in addition to the elimination of error, for the fact that in the HUDSON "37" is given a quality not obtainable in any other car and never possible under any other conditions.

The HUDSON "37" is electrically self-cranking and electrically lighted. It is fully equipped with 12-inch upholstery top, rain vision windshield, a motor which develops 37-43 horsepower, speedometer, clock, 36x4 inch wheels, 118-inch wheel base, tools and other equipment.

Therefore it has the best quality we know how to produce. Every detail of luxury is developed to the highest degree. The car is entirely operated from the driver's seat. Lights are controlled from the dash. All oiling places are conveniently located.

The price of either the Five-Passenger Touring Car, the Torpedo or Roadster models is \$1575, f. o. b. Detroit.

Electrically Lighted

WHAT THESE 48 MEN HAVE DONE

The HUDSON "37" is electrically self-cranking and electrically lighted. It is fully equipped with 12-inch upholstery top, rain vision windshield, a motor which develops 37-43 horsepower, speedometer, clock, 36x4 inch wheels, 118-inch wheel base, tools and other equipment.

Electric Self-Cranking

SOME ONE WILL ADVISE YOU TO WAIT

Some may say to you "The HUDSON '37' is a new car. Wait and see what it does during its first year. Get some older car—one that has been developed slowly, that has been improved year after year but which is a radical change from the leading engineering practices."

That was sound advice when no builder had had experience. It is sound advice as applied to any car built by any one man. It does not apply to the HUDSON "37" which is the result of the experience of these 48 men gained in 97 factories in building over 200,000 cars.
